

Surface Emissions Monitoring Results

November 11, 2020

SORRENTO, La. (Nov. 11, 2020) – On November 2-4, 2020, surface emissions monitoring (SEM) evaluations were conducted at Colonial Landfill in accordance with the procedures in 40 CFR 60.755(c) and (d). During these evaluations, there were zero methane concentrations in excess of 250 ppm. Therefore, no corrective actions were performed, and no hydrogen sulfide readings were taken.
